

## FOUR POST MECHANICALLY ACTUATED LIFT FOR AIR CARGO HANDLING

### SPECIALTY SOLUTION #38

AEROSPACE

- 20,000 lb capacity, mechanical actuation, 100" x 144", 54" vertical travel
- Four-post mechanical dock lift with high capacity and low profile
- Electro-mechanical drive with machine screw actuators
- Self locking, 100% level lifting, zero creep load holding

**A** four post mechanically actuated Cargovator was the ideal solution for air-cargo logistics at American Airlines in Dallas, Texas.

The lift's design offers operator safety, self-locking at any height, 100% level lifting regardless of load location and zero creep. Additional features include above-floor mounting, line-shaft equalizing and automatic shut-off maintenance sensors.
